

# AIRFORCE MK4 TYRE INFLATOR 0.53M HOSE SCO CONNECTOR

As the world's leading linear gauge, the AIRFORCE® MK4 takes performance to a new level, offering even greater ease of use with a 20% larger screen and clearer to read scale. Meanwhile PCL's leading high performance two-stage valve design ensures accuracy and longer life compared to competitors' single-stage mechanisms, where filters are used in an attempt to protect the product. This can result in over 50% reduction in product life, with filters slowing down inflation rates, wasting valuable technician time.

Tests show the AIRFORCE® MK4 can cover more than ten times as many cycles as its main contender, making it the product of choice for users who prefer a linear tool.

## Features

- New viewing window - Larger window
- gives 20% greater field of viewing
- Lighter weight - Less work strain and easier for repetitive use
- Biomorphic Shape - Ergonomic, easier to use and less prone to damage when dropped
- New valve mechanism - Simplified 2 stage mechanism design gives longest life available and reduces fatigue in use
- Improved piston & seal design - No internal corrosion, no sticking and no skewing of accuracy
- Accuracy standards - Tested to over 400,000 cycles at 100% accuracy

Part Number	Hose Length	Tyre valve connection	Calibration
AFG4H04	0.53 m / 21 in	Single clip-on	0-138 psi/0-9.6 bar
