

ISTOBAL M'START

Car wash efficiency

ROCKET fairing

The bold design of the rocket front and rear fairing makes the top half of the rollover really stand out, giving the unit an air of strength as well as making it look more appealing.

PLAIN fairing

Functional fairing for the top half of the columns to match the design of the doors. Its geometrical shapes give it a sturdy and simple appearance which is in line with the overall design of the machine.

Effective drying

Dryer 152 kW [204 hp] (4 x 38 kW [51 hp]) with horizontal dryer nozzle plus vehicle scanning and optional deflector to achieve a better result on the rear of the vehicle. As an alternative, we offer a choice of two 4 kW [5.4 hp] turbofans fitted to the top of the machine to perform the dry phase with no need for scanning.

Splash screens

Perspex screens with aluminium reinforcement, with a safe and practical design and fully integrated into the machine's structure. Option recommended to avoid splashing during the wash phase.

Wheel-wash

A complete car wash must include the vehicle's wheels. Available with or without high-pressure: flat or spiral brushes are possible.

Glossy Polish mirror

Product recommended for a mirror-like finish. After application, the brushes massage the vehicle surface to give an extra shine.

Underchassis wash

Possible choice: static underchassis wash 10 bar [145 PSI] 90 L/min [238 gpm], oscillating 15 bar [217 PSI] 120 L/min [317 gpm], or by sector 15 bar [217 PSI] 120 L/min [317 gpm].
